

## My ideal room

1. *Read and draw!*

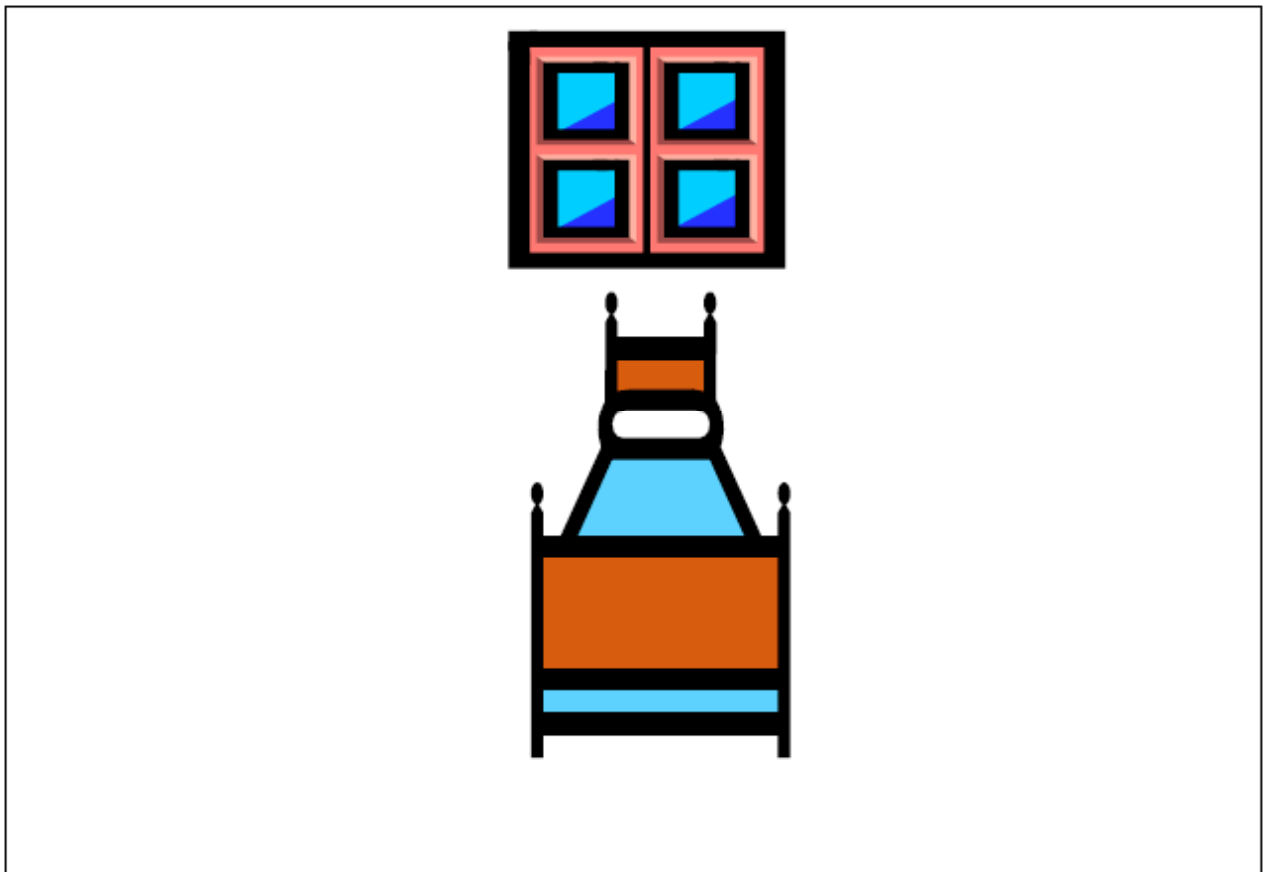

In my ideal room there is a bedside table next to the bed on the left.

On the bedside table there is a blue lamp and a digital clock/radio.

In front of the table there is a small green and blue rug with stripes.

There is a long table next to the bed on the right. There is a CD player and a television on the table.

Under the table there are two boxes of CDs and DVDs.

There is a desk and a chair next to the long table on the right.

On top of the table there is a lap-top computer, a play station and lots of computer games.

At the window there are curtains in my favourite colour.

In front of the bed there is a toybox which has all my favourite toys.

Next to the bed on the left is my robot. He helps me with my homework!

2. *Now draw a plan of your own ideal room and write about it!*
